

The NIH Children’s School welcomes you!

NIH demonstrates its commitment to the lifetime success of your child by providing K-12 educational support to all school-aged children receiving treatment at NIH. Teachers at the NIH Children’s School will collaborate with your child’s home institution to ensure you child stays on track for academic success. If your child is not enrolled in education at home, the NIH Teachers will create an individualized educational plan for your child to support their academic progress and prepare them for success when they re-enter school upon your return home.

Introduce your child to us!

Please complete the form below so teachers can prepare for the arrival of your child.

Name of Child		Age	
Home State or Country		Home Language
