

K-12 Support from the NIH Children’s School

NIH demonstrates its commitment to the lifetime success of our patients by providing K-12 educational support to all school-aged children receiving treatment at NIH. Teachers at the NIH Children’s School collaborate with each child’s home institution to ensure that our patients stay on track for academic success.

Share student’s educational history and needs

Please complete the form below so NIH teachers can prepare for the arrival of your student.

Name of Child		Current Grade Level	
Name of School		Phone Number	
Name of School District		State or Country	
Any challenges that NIH teachers should be aware of?			
Any concerns that you would like NIH teachers to assist with?			
Does this student receive Special Education support? If yes, please describe.			
Has this student missed significant periods of school? If yes, please describe.			
What subjects would you like NIH teachers to focus on? (For HS students, please send a transcript)			
Does this student enjoy learning and school?			
Teacher Name(s)		Phone Number	
Email Address			
Counselor and/or Administrator Name(s)		Phone Number	
Email Address			

Yes - No We will provide an MCPS “Authorization for Release/Exchange of Confidential Information” signed by the parent. Do you need any additional forms signed in order to communicate with NIH teachers about this student?

Please share any additional information with us at school@NIH.gov, or call (301) 496-2077.
